CH RUFORD SLAVES 'EM WITH OWN LATHER ...

Just about everybody on the Washington scene these days is having a wonderful time either raising hell with or trying to defend the Environmental Protection Agency. This outfit has been in hot water since it was first put together and the problems have been due to just about everything that has been connected with the operation. One of the smarter things for his peace of mind that President Jimmy Carter did was to load the EPA with Environmental Types, and they proceeded to throw their weight around with wild abandon. The problems have come home with letters of kittens since the Reagan Crowd has tried to rain 'em in somewhat. His choice to run this thing was Anna McGill Gorsuch, a strong-willed Colorado lady who was once described (CONT. ON PAGE 30)

Select Group to Address Problem With Regulatory Agencies, USDA and Others in Washington February 28-March 1

Washington, Feb. 17 - Deputy Secretary of Agriculture ... The ten bankers appointed to serve on the task force in addition to Chairman Brenton are: ...
The Agricultural Task Force is being asked to urgently formulate recommendations for addressing the current farm loan problems in light of bank regulations and examinations procedures. In addition, the task force members were urged by Kennedy to remain sensitive to the protection of bank deposits and stockholders' equity. ...
The American Bankers Association is the national trade and professional association for America's full service banks. More than 90 percent of the nation's 14,500 commercial banks are its members, including more banks that serve the agricultural industry than any other financial trade association.

Fed Cattle Sold Firm, Higher, Hogs Uneven At Central Markets

Receipts of slaughter cattle and hogs were reduced at the central markets Monday. Trade on fed steers and heifers was uneven, but largely on a firm to unevenly higher basis. Slaughter cows and bulls were largely steady, a few spots of strength noted. Butcher hogs were uneven with prices better in the western areas and mostly tending lower at eastern points. Price trends, quotations on choice and prime steers and heifers and the mixed good and choice grades end on good and choice Halstein steers and on U.S. 1-3 hogs dealing mostly 200 to 280 pounds included:

Several Big "ifs" In Cattle Future

Chicago - The number of cattle in the nation's beef herd appears to be in a "holding pattern" and likely to stay there for the remainder of 1983, four prominent livestock economists said in Chicago. ...
The economists, participating in the sixth in a series of cattle cycle forums sponsored by American Farm Bureau Federation, see no significant increase in either beef cattle numbers or supplies of beef on the market this year. But they do see a possibility that prices could improve later this year if the right combination of circumstances fell into place. ...
Serving as panelists for the forum were Dr. Wayne D. Purcell, professor of agricultural economics at Virginia Polytechnic Institute and State University; Dr. Edward Uyasaak Jr., livestock marketing economist and professor, Texas A&M University; Dr. Robert J. Reiersma, economic consultant for Saga Corporation, Menlo, Park, CA; and Glenn Grimes, professor of agricultural economics at University of Missouri who participated via tape recording because of illness. The session was moderated by Harold Harley, director of AFBF's commodity division, and Al Kentag, director of AFBF's livestock department. ...
The four economists generally agreed that after four years of back-to-back losses, cattle producers are reluctant to expand the beef herd from the estimated 115 million head inventoried by the Department of Agriculture on (CONT. ON PAGE 40)

It's Performance That Counts And You Can Count
 On Billy Harry Brangus For Performance

Performance should be the corner stone of a breeding program and that's why we place our emphasis on birth weights, weaning weights, yearling weights and weight per day of age as well as the calving ease, milking and mothering ability of the Dam when we are making our breeding decisions.

Pinzgauer/Pinzbrah Field Day Will be May 14 in Athens, TX

Bob Sullivan, President of the Southwest Pinzgauer Association and Dan Scott, spokesman for East Texas Pinzgauer Breeders, jointly announced the Southwest Pinzgauer Association and East Texas Pinzgauer Breeders would co-sponsor a Pinzgauer/Pinzbrah Field Day to be held at the Henderson County Fairgrounds at Athens, Texas on May 14, 1983. Sullivan stated that the S.W.P.A. annual membership and Board of Directors Meeting would also be held at that time.

The Field Day is planned to follow the format of the highly successful venture held in Canton, Texas in 1982. Already confirmed for the program are outstanding beef cattle specialists and agricultural economic experts from area experiment stations and universities. Regional and national Pinzgauer leaders will also outline history and progress of the Pinzgauer breed with emphasis for this exhibit being placed on

the unique genetic potential of Pinzgauer cattle in crossbreeding programs.

The highlight of last year's program, a buffet luncheon which is provided by East Texas Pinzgauer breeders and their wives and provided for all visitors included in the program. Local arrangements are the responsibility of Marie Hooper, Tyler, Texas, Dan Scott, Murchison, Texas and Matt Free, Sunnyvale, Texas. Individuals interested in bringing exhibit cattle, or have suggestions for the program or require any additional information regarding the Field Day are urged to contact those Committee members.

As an added feature of this Field Day the Southwest Association is asking the APA to provide materials and expertise for conducting a cattle registration workshop and a field trip to the end of the Field Day to Scott Pinzgauer Ranch to visit Pinzgauer and Pinzbrah breeding operations and to examine various forage programs on the ranch.

S.W.P.A. members invite all Pinzgauer breeders and potential Pinzgauer people to mark their calendars for May 15th and make firm plans to attend this fun and educational program.

Looking For Cattle You Can Depend ON?

Today's Cattleman needs productivity and performance he can bank on... the proven, predictable performance of the Pinzgauer. As productive as they are colorful, count on Pinzgauer if you're looking for cattle that can produce a profit in today's market.

Regional Pinzgauer Show at East Texas Fair, Tyler in 1983

In October of 1982, shortly after the East Texas Fair, Bob Sullivan, President, S.W.P.A., mailed a questionnaire to all breeders and exhibitors who participated in the 1982 S.W.P.A. Show. He received a response from a majority of the exhibitors and breeders and those were invariably strongly positive regarding the Show and Pinzgauer Exhibit.

The S.W.P.A. Executive Committee has tentatively arranged with the East Texas Fair to present the S.W.P.A. Regional Show and Exhibit in 1983 with a format similar to that which was felt to be so successful in 1982. The Show Committee will be appointed at the May Membership and Board of Directors Meeting to be held in Athens, Texas. Sullivan asked that all prospective exhibitors begin to select and fit their animals now for this first major show of the 1983-84 winter circuit.

Pinzgauer people to mark their calendars for May 15th and make firm plans to attend this fun and educational program.

Brangus Bull Sale at Denver Big Success

With a large crowd and much enthusiasm the Brangus breed association's National Western Range Bull Sale during the morning hours of Stockman's Day, January 19, 1983, in Denver, Colorado. This unique third year event, designed to offer a high quality set of bulls to Western commercial cattlemen, proved to be a resounding success. The forty-five bulls consigned from five states grossed \$169,550 to average \$2,437. Comments from Judge Jim Leachman and Jake White, who appraised the bulls during the Pen Show the previous afternoon, emphasized their extra frame and functional soundness. The uniformity and quality of the bulls was exceptionally deep giving the

College Scholarships Of \$5,400 Available To Farm Youngsters

College scholarships totaling \$5,400 will be awarded to eight deserving young boys and girls in 1983 by the American Angus Auxiliary, reports Mrs. Eli B. Volaw, Jr., Wellfleet, Nebraska, Scholarship Chairwoman of the national Angus woman's organization.

Scholarships will be awarded to eight high school graduating seniors who are active in Angus beef projects and school, community and church activities. Five girl and three boy winners will be selected from each of the respective state applications. First place scholarship in each group will be \$1,150, with \$800 for second and \$500 for third. There will be a \$300 scholarship for the fourth place girl and a \$200 scholarship to the fifth place girl.

Much of the Auxiliary scholarship money is generated from the sale of a donated heifer each year at the American Angus Futurity. The heifer this year is being donated by Quirk Land & Cattle Company, Hastings, Nebraska. The April daughter of Hi Guy will sell with breeding privileges to any bull in the Quirk herd bull battery.

The scholarship entry deadline is June 25. The winners will be announced following the judging of the 1983 Futurity in Louisville, Kentucky. Applications may be made through the names of state chairman, applications and other information about the program. (CONT. ON PAGE 15)

Y-TEX GardStar insecticide ear tags

Guards Cattle Against Flies & Ticks for a Full Summer Season

Attach one GardStar tag per animal for season long control of horn flies. Two tags per animal (one in each ear) controls Gulf Coast ticks and face flies. Proven Effective* University researchers field tests have proven the effectiveness of Insecticide ear tags in eliminating summer pests from cattle.

Proven Safety. Even calves and lactating dairy cattle may use GardStar ear tags. GardStar tags are easily applied with the Y-TEX Tagger. Squeeze application snaps button into tag like a pop-rivet for unbeatable retention. GardStar tags may be marked with Y-TEX tag marking ink. Ink will not effect tag's performance. GardStar Insecticide ear tags—Safe, Proven, Effective.

"J.R."

We have used this herd sire in our herd and couldn't be prouder of his superior performance. J.R. is one of the highest performing bulls in the Brangus breed. He weighed 1,525 lbs. as a yearling and had a ratio of 110 with an index of 109. His herd calves average 80 lbs. as heifers and his calves 82 lbs.

"Black Velvet"

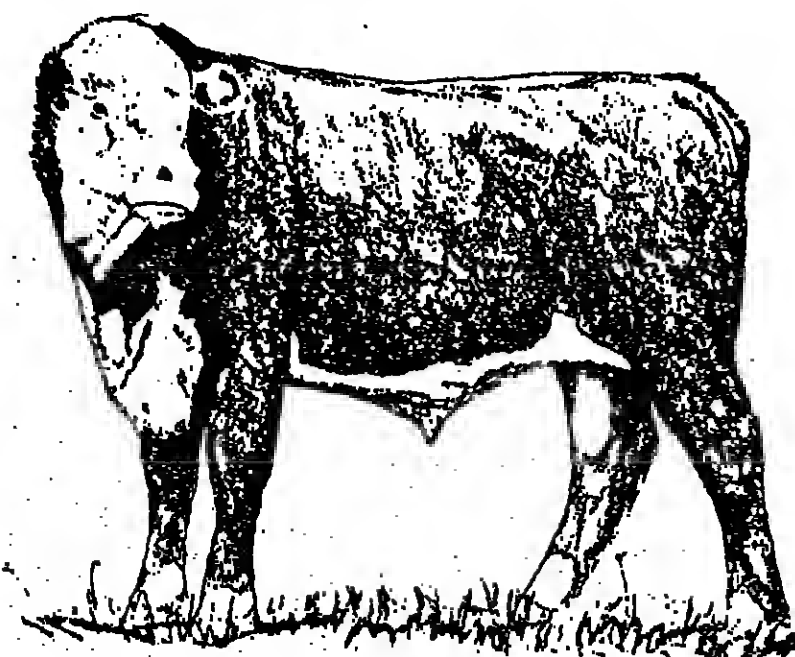

The dam of the 1980 San Antonio Grand Champion Female and 1980 Futurity Reserve Champion Female. She has produced 3 donor cows and a herd sire for us. She is a consistent embryo producer, with 10 pregnancies in 1981 and 1982 in one collection each year. Two daughters also sell in this sale.

N.E. Texas Simmental To Hold Field Day With Gregory's Bull Sale

The North East Texas Simmental Association will hold a field day in conjunction with Marvin and Betty Gregory's Texas "G" Ranch annual bull sale on March 12, 1983. This is the second field day the association has sponsored. It will be an educational program directed primarily at the needs of the commercial cattle man.

A seminar will be conducted by Dr. Steve Hammack, Extension Beef Cattle Specialist from the Central Texas District in Stephenville. His subject will be "Cross Breeding Systems." In recent years much research has been done by the Extension system and those results will provide a background for the discussion.

Charles Rollins, cattle judge and auctioneer, will critique a number of bulls. This is an unusual opportunity to compare bulls, and see in-the-flesh differences.

The association is aware that the more knowledgeable cattle men are, the better selection they will make. That knowledge will help the Simmental breed as Simmental bulls have the double quality of being able to produce both excellent replacement heifers and modern growthy calves for the steer market.

Following the field day, the Texas "G" Ranch will conduct its annual bull sale. Seventy select Simmental bulls, including those used in the field day,

Cows to keep you in business.

Simmental.

Through performance testing and relentless culling, the American Simmental has become an outstanding brood cow.

She breeds early and regularly, calves unassisted and has the milk to grow the calf to its full potential. Adaptable to any environment, all she asks is feed and management equal to her effort.

Simmental -- mother cows that make the most of your good management.

Southwestern BEEFALO NEWS

Beefalo Show at North Texas Fair Set August 23-28

Frisco, TX — The Southwestern Beefalo Association, Inc. and the North Texas State Fair will sponsor an open Beefalo show at the North Texas State Fair August 23-28, 1983 at Denton, Texas. The finalized time and date of the show will be announced in a few weeks.

Roger Powell, President of the Southwestern Beefalo Association made the announcement that this will be one of the two Beefalo shows held in the North Texas area this summer and the first Beefalo show in the Southwest.

Anyone with Beefalo cattle registered in the Beefalo Registry of the American Beefalo Association, World Beefalo Association or the International Beefalo Breeders Registry are invited to participate in these shows. All animals shown must be 1/2 blood Beefalo or higher. There will be five classes of breeding females and one class of breeding males.

Tom Martin, Richardson, Texas, will be Superintendent of the Beefalo show.

For information on these shows please contact Roger Powell, President, Southwestern Beefalo Association, Rt. 2 Box 30, Frisco, Texas 75034, Ph. (214) 877-2816 or Tom Martin, 1920 Cheyenne Dr., Richardson, Texas 75080, Ph. (214) 281-1511.

Beefalo Hardiness Put to Test

Edmond, Oklahoma — Beefalo breeder, Gory Newman, started working with beefalo in 1981 after reading a Mother Earth News article which enthusiastically extolled the virtues of this new breed. Newman states that all though there were many advantages claimed for Beefalo over other cattle breeds, the point that really caught his attention was the supposed ability of Beefalo to grow and thrive on roughage and low quality feed and pasture. With the beef industry in an economic squeeze every dollar counts and the cattleman that can maintain his herd on the least dollars may be the only one who survives. As he analyzed his cost, it became quickly apparent that the bulk of his expense each year goes toward hay preparation or purchase, load supplements, or winter pasture preparation in order to get his beef cows through the winter with healthy calves and a good spring calf crop. If thoroughbred looked like cutting winter feed expenses was the key to cost cutting and, at last, he found it. Beefalo looked like they might be the answer.

Coming out of the winter of 1981-82, he felt he could see a significant difference in the condition of his Beefalo versus non-Beefalo cattle, but did not have the data to substantiate his observation. As he talked to other Beefalo breeders it became apparent that although most had observed the same thing, no one had any hard data to substantiate this very basic claim of Beefalo ability and hardiness which makes the breed so attractive.

With the purchase of his own livestock scales in early summer 1982, Newman decided to put the Beefalo claim of hardiness and foraging ability to the test during the winter of 1982-83. Included in the test are 15 half and three-quarter blood Beefalo cows and mature heifers and 7 non-Beefalo cows and mature heifers. The non-Beefalo cattle consist of 2 registered Limousin, 2 registered Gelbvieh, 2 commercial Angus and 4 commercial Harford.

On October 10, 1982, all cattle were weighed and wormed with the recommended dose of Trinitol bolus. Subsequent focus test show the morning of October 10, the animals were weighed. The average October weight of the Beefalo was 1078 lbs. and the non-Beefalo 1074 lbs.

Since October 10, the test cattle have been on dry bermuda and native pasture with an additional 21 head of non-test animals. The only supplemental feeding given to the herd during that time was a daily feeding of approximately 3 bales of native hay during December 1, to keep the herd coming in for observation. In addition, "Stockade 4" mineral supplement is available for choice. Of note, also, is the fact that central Oklahoma's dry, hot late summer and fall burned out much of the pasture grasses' food value and pasture quality is significantly lower this year.

On January 1, 1983, all 22 test animals were weighed for a mid-winter feeding given to the herd during that time was a daily feeding of approximately 3 bales of native hay during December 1, to keep the herd coming in for observation. In addition, "Stockade 4" mineral supplement is available for choice. Of note, also, is the fact that central Oklahoma's dry, hot late summer and fall burned out much of the pasture grasses' food value and pasture quality is significantly lower this year.

While only mid-point results, it appears that Beefalo do indeed have a significant edge when conditions get tough, as during winter months and drought conditions. All cattle will be weighed and complete test results will be reported in the Southwestern Beefalo News edition of the Weekly Livestock Reporter. Anyone interested in more details of the test should feel free to contact Gory Newman, Rt. 2, Box 482, Edmond, Oklahoma 73034.

In addition, "Stockade 4" mineral supplement is available for choice. Of note, also, is the fact that central Oklahoma's dry, hot late summer and fall burned out much of the pasture grasses' food value and pasture quality is significantly lower this year.

On January 1, 1983, all 22 test animals were weighed for a mid-winter feeding given to the herd during that time was a daily feeding of approximately 3 bales of native hay during December 1, to keep the herd coming in for observation. In addition, "Stockade 4" mineral supplement is available for choice. Of note, also, is the fact that central Oklahoma's dry, hot late summer and fall burned out much of the pasture grasses' food value and pasture quality is significantly lower this year.

While only mid-point results, it appears that Beefalo do indeed have a significant edge when conditions get tough, as during winter months and drought conditions. All cattle will be weighed and complete test results will be reported in the Southwestern Beefalo News edition of the Weekly Livestock Reporter. Anyone interested in more details of the test should feel free to contact Gory Newman, Rt. 2, Box 482, Edmond, Oklahoma 73034.

Fort Worth Shorthorn Results

Oscar Trell Goliath, owned by Gene University, West Lafayette, IN, has accepted the position of executive secretary-treasurer of the American Shorthorn Association, according to Ric Hoyt, Burns, OR, national president of the beef breed organization headquartered in Omaha, NE.

Dr. Hunsley has been at Purdue University since 1967 and his duties have included both teaching and research work as well as some Extension activities from time to time. Most recently, he was in charge of the unrated beef cattle herd at the teaching unit, taught a number of upper and graduate level animal sciences courses and was coach of the livestock judging and evaluation teams for the university.

He has been involved with numerous research activities in the production and management areas with emphasis on animal growth and development. He is the author or co-author of numerous research reports involving animal management, production and growth studies. Dr. Hunsley is also the author of two of the most widely used textbooks involving livestock judging, selection and evaluation.

O'Brien Farms 8th Annual Bull Sale

Sale to be held at the O'Brien Farms Sale Pavilion, Jane, Missouri

Featuring:
110 big, stout, ready-to-use breeding bulls.

70 — 2 year olds
40 — fall yearlings

These bulls are from the top of our 1981 production with over 10 years of Limousin upbreeding behind them. The bulls are purebred and percentage, both reds and blacks. Sired by such great O'Brien bulls as Elk River, Burton Jamison, Sugar Creek and Spaw Creek.

Raised range tough and developed with commercial catemen in mind. If you are looking for bulls to put additional breeding value in your herd, consider this top offering of O'Brien bulls.

WHEN STRESS GETS THEM DOWN...

POWER UP

with **Ralco Power-Pak**

You don't have to be told what stress can do to your stock... poor nutrition, shrinkage, slow recovery, deathloss. Ralco-Mix Power-Pak is especially formulated to fight the debilitating results of stress. High levels of vitamins, electrolytes, amino acids, Suppl-Mix and probiotics promote appetite, improve gut digestion and stimulate an active rumen population.

Power-Pak can be used for animals at any age including calves suffering from stress-induced diarrhea and dehydration. In severe stress cases, Power-Pak can be administered as a drench. Mixed with whatever you feed, Ralco-Mix Power-Pak is a proven way to stop stress.

AVOID CHANGING WELL LEATHERS FOR MANY YEARS

Perma-cups are molded urethanes, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wear, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Install Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull that well for many years. Thousands are in wells that have not been retethered in 9 years! All are available in standard cylinder and ope sizes. Write or call for our catalog. We ship same day order is received. This is our 33rd year serving ranchers.

Stuph & Thangs

(CONT. FROM PAGE 1)

ed by a Colorado newspaper as "mean enough to kick a bear to death" — with her hair feet.

Natchery, this native toughness in her makeup was an immediate challenge to all the environmentalists whether they were the sensible or the idiotic types. Apparently the lady is allergic to both soft soap and hard ball kinds of evasion. The Anti-Reagan types and the Democrats in general as well as the anti-establishment types in the news media have been glittin' more millesge outta the Super Fund. Moos then anything since Nixon's Watergate problem.

This brings up an interestin' thought. It has been a time honored trick for Congress and the Burrocrats to make a move when the 'heal becomes curious enough to endanger some of their pet projects. They emple change th' names of the outfits that are in trouble and it takes th' semi-observant public some time to figure out jist what happened to th' thing they was not after and this breathing room got 'em some time in which to clean up their act.

Now, Lol & Behold! what has Anna done? Since Ms. Gorauch had become such a handy target, she up and changes her name. No longer do they have Anna Gorauch to kick around. It is a brand new name since she became wedded th' other day, now they have got to go in and revise all of their heckling and prototin' to draw a bead on one known as Anne Burford. If this ain't havin' Congress and th' Burrocrats with their own ther we have got to go back to school.

Bankers to Attend Farm, Ranch Credit Conference at A&M

College Station — Discussions on how to manage financial risks in today's unsteady economic environment will be a feature of the upcoming 31st Texas Farm and Ranch Credit Conference for Commercial Bankers, Feb. 27-March 1, in the Rudder Center at the Texas A&M University campus.

"Agriculture in Texas and the U.S. is in one of the worst of economic times. Although inflation has slowed, a sluggish economy has created a tough situation for the Texas producers and their lenders," explains Dr. Richard Trimble, economist, menogement, Texas Agricultural Extension Service, Texas A&M University System. Trimble is general chairman for the conference.

The Farm and Ranch Credit Conference is designed to help commercial bankers of Texas understand and better cope with the problems facing them and their farm and ranch clients, Trimble added.

Mid-Winter Expo Hereford Champs

The Mid-Winter Livestock Exposition, Shreveport, atoned a high quality set of Hereford breeding stock from the four-state area of Arkansas, Louisiana, Oklahoma, and Texas. Exhibitors paraded their entries before the skilled eyes of judge Bob Crane of Gallion, AL.

Grand champion bull honors went to RH Li Domino 091, exhibited by Hudson Herefords, Harrison, AR. ER Mark Clescio, an October 1981 bull son of SC Clescio ET, was judge Crane's choice for the reserve grand champion bull trophy. He is owned by Edwards Ranch, Newark, AR.

In female competition, J Bar P Ranch, Normangee, TX, claimed the grand champion female purple rosette with FMR Li Domilou 121, the first-place winter calf and heifer calf champion. The grand champion female was sired by Li Domino 76901.

Hudson Herefords paraded CH Li Domilou 125, a June 2, 1981 daughter of LH 14F Mo Le 7903, to the reserve grand champion female position.

Reserve champion bull calf honors went to GLH High Cles 265, exhibited by Dennis Raechas, Grady, OK and Higgins Hereford Ranch, Nowata, OK.

AC Li Domino 179, shown by Art Clerk Herefords, Comanche, TX, took the yearling champion bull title. The reserve yearling champion bull award was captured by Extra ing, owned by Dennis Raechas; Glenkirk Farms, Mayville, MO; G&S Herefords, Elgin, OK, and Weiss & Sons, Manning, IA.

H Classy Miss 8050, won the reserve champion heifer calf honor for her owners Hudson Herefords, and the reserve yearling champion female honors were awarded to TS Li Domineite 1115, exhibited by Art Clerk Herefords.

Hudson Herefords walked away with the top awards in the best-of-head class and the get-of-sire competition. The blue ribbon get-of-sire winners were the progeny of SC Clescio ET.

Being involved in a motor vehicle accident at 30 miles per hour without a safety belt is the same as jumping head first off a 8 story building.

Ever thine, The Edillar.

P.S.: Uakle Dunk notes where th' Administration & Congress are both sayin' loud and clear there sint no chance they will rovestee their field and abolish th' income tax withholdin' on pensions, dividends and interest. This becomes most interestin' when we read where Texas' Sen. John Tower reports he has been glittin' an average of 9,500 letters per day, almost 30,000 pieces of mail opposed to this new tax scheme. Any elected official who ignores that kind of fan mail does it at his or her peril. "There is no dignity quite so impressive, and no independence quite so important, as living within your means." Who said that? Oh! Silent Cal Coolidge, a post President. Dunk figures it sounds like good advice for both Govinments & individuals. Nuthin' seems more bothersome than debt.

1983 National Brahman Sale Averages \$3,071

Jackson, MS — The Mississippi Brahman Association hosted the 1983 National Brahman Sale here on February 16 during the Dixie National Livestock Show. The sale attracted over 400 people to watch 21 lots of top Brahman cattle from across the United States sell in the prestigious sale.

The James P. Wood Farm of Waynesboro, MS consigned the high selling lot for the sale. WD Inen 208 was also the high selling bull for the national sale. The coming three-year-old bull sold for the top dollar of \$5,200 to T. A. Turnpseed of Atxell, TX.

Richard Evans of Beaumont, TX was the buyer for the high selling Brahman female. The female, JDB Miss River Oaks 809, was consigned by River Oaks Brahman of Belton, TX. The heifer sold with a breeding to 1W's Rexerint 208 for the sum of \$4,000.

Buyers were registered from Texas, Florida, Louisiana, and Mississippi. Sale chairman for the 1983 National Brahman Sale were Clyde Goudreau of Osyka, MS and Jerry King of Purvis, MS. Ike Hamilton of West Monroe, LA served as auctioneer.

	Gross	Average
4 Brahmas	\$14,800	\$3,700
17 Brahmas	\$49,710	\$2,924
21 Brahmas	\$84,491	\$3,071

San Antonio Show Names Brahman Junior Champs and Brahman Steer Winners

San Antonio, TX — Over 210 entries for the Junior Brahman Show were vying for \$2,000 in premiums here at the San Antonio Show on Sunday, February 13. Max Wolfe of Frost, TX served as judge for the Junior Brahman Show.

Douglas Hufsfeld, a Washington County 4-H'er, was the winning exhibitor of the grand champion Brahman heifer. His outtry was DCH Miss Aggie Manso 205, a yearling heifer that also won the junior heifer calf division.

Steven Swoner of Waro, TX exhibited the reserve grand champion Brahman heifer for the junior show. The McLennan County 4-H'er won the prize with his entry of S Miss Willie 176, a senior heifer calf.

The Brahman Journal of Eddy, TX awarded the championship trophy for the showmanship class to Emmitt Schultz, III of Cypress, TX. Emmitt is a Cy-Fair FFA member. The second place winner for showmanship was George Tules of Humble, TX, and third place went to Steven Herzog of Austin County. The top three places received prize money from the ADHA office in Houston, TX.

Over 120 entries were marked for the Brahman steer show on Saturday, February 12. Dr. Bill Jacob of California Polytech in San Luis Obispo, CA was the judge for the steer show.

The championship went to Deatrice Klay of Boerne FFA for her entry of a Brahman-Simmental steer.

David Waldrip of the New Braunfels FFA won the reserve grand championship with his Brahman-Simmental cross steer.
